Subject: ***External E-Mail*** 112312- Asbestos property assessment summary 2019-12-15

CAUTION: This email originated from outside of the organization. Do not click links or open attachments unless you recognize the sender and their e-mail address and know the content is safe.

All,

As of December 15, 2019, we have not received any new asbestos results for property assessments as we have increased our laboratory analysis turn-around time from 24 hours to 4 days. Please see below for an updated bulleted summary, specifically regarding the number of samples collected:

- To date, CTEH has conducted 74 (4 industrial/commercial and 70 residential) property sampling assessments.
- To date, CTEH has collected 145 bulk samples and 185 wipe samples for asbestos analysis from 74 property sampling assessments.
- To date, laboratory analysis results have been received for 234 bulk samples and 184 wipes samples. In some cases, samples may have been analyzed multiple times.
- To date, out of 234 bulk samples, 96 detections of asbestos type have been reported with a range of detections between 2 – 55 %.
- To date, out of 184 wipe samples, there have been no detections of asbestos above the method detection limit of 2.99 asbestos structures

Let me know if you have any questions,

Dana Szymkowicz, Ph.D.
